INDEX.

VOL. CXXIX.

Illustrations.

Names.

A

ABBEY Works, Lincoln, Clayton and Shuttleworth, Limited, 422 (*Two-page Supplement, April 23rd*, 1920)
Adams "Twin-Six" Motor Car Engine, 252
Ahrons, E. L., on Fairbairn, W., and Sons, Manchester, 184; (Letter), 357
Ahrons, E. L., on Jones and Potts, Newton-le-Willows, 508
Ahrons, E. L., on Rothwell and Co., Bolton, 598
Airco No. 18 Passenger Aeroplane, Aircraft Manufacturing Company, Limited, 32, 33, 34
Ajax of 1841 beside Modern Austrian Engine, 508
Allen, W. H., Son and Co., Four-cylinder Hot-bulb Heavy Oil Engine, 278, 279
Alliance Aeroplane Company, Limited, Atlantic Type, 32, 33; Biplane, Two-seater, 32
American General Electric Company, "Genemotor" Windings for Motor Cars, 404
American Locomotive Company, Mallet Locomotives for the Virginian Railway, 381 (*Two-page Supplement, April 9th*,1920)
American Water Supply Subterranean Infiltration Galleries, 537
Anschütz, Brown, Sperry and Thomson Compasses, 55, 81, 105, 136, 160, 190, 210, 242.: (Letters), 140, 357, 395
Archdale, J., and Co., Centralised Control Radial Drilling Machine, 303
Argonne Steamship, J. S. White and Co., Limited, 457

B

BABCOCK and WILCOX, Electric Jib Cranes at Dover Harbour, 111, 116
Balboa, M. S., 14
Batanes, Steamship, 14
Beardmore, 120 B.H.P. Four-cylinder Hot-bulb Engine, 347
Benedicks, Carl, on Recent Progress in Thermo-electricity, 617
Bergstrom, E. M., on Recent Advances in Utilisation of Water Power, 110, 124, 146, 172, 271
Birmingham District, Water Resources, 646
Birmingham, Rapid Filtration Plant at Whitacre Pumping Station, 622, 623, 626
B.S.A. Small Tools Works, 266, 274
Blenkinsop Excentric Gear, 619
Blenkinsop Rack Locomotive, 618
Boulton and Paul, Limited, All-metal Two-seater P. 10 Aeroplane, 34, 35
Branca's Illustration of Dough-kneading Machine, 1629, 163
Bréguet Aeroplane, Proposed, with Enclosed Fuselage, 520
Brighton and Lancing Works of the London, Brighton and South-Coast Railway, 568, 578
Brindley, Harry Samuel Bickerton (Portrait), 378
Bristol and Exeter Engine of1859, 598
British Aerial Transport Company, Limited:
Bat Five-seater Biplane, 7 (*Supplement, January 2nd*, 1920)
British and Colonial Aeroplane Company:
Bristol "Babe" Aeroplane, 31, 32, 33
Bristol "Pullman" Triplane, 7, 8 (*Supplement, January 2nd*, 1920)
Bristol "Tourer" Biplane, 31, 33
Bristol Two-seater Coupé, 7, 8 (*Supplement, January 2nd*, 1920)
British Railway Workshops in War Time, 426, 430, 568, 578
British Thomson-Houston Portable Wireless Receiver, 394
Brolt Dynamo Armature with Ventilating Fan, Internal Connections of Dynamo, 366, 367
Brooke's 28 H.P. Six-cylinder Motor Boat Engine, 320, 321
Broom and Wade, Motor-driven Geared Air Compressor, 98
Brown, A. R., Bolnes Hot-bulb Engine, 320
Brown, John, and Co., H.M. Battle-Cruiser Hood, 92, 93, 313, 314, 315, 324, 330 (*Four-page Supplement, March 26th*, 1920)
Brown, John, and Co., Limited, Submarine Depôt Ship Platypus, 218, 222
Bruce Peebles and Co., 650 B.H.P., Electrical Air Compressor, 482
Bucyrus Company, Steam Navvy on Caterpillar Tracks, 120

C

CAMBRIDGE and Paul Instrument Company's CO_2 Recorder, 62, 63
Cammellaird-Fullagar Diesel Engine, 107. 132 (*Two-page Supplement, February 6th*, 1920)
Canadian Electric Power Station Industry, 230
Carmichael Engine Gear, 619
Caufourier, M. P., on the Theory of Tidal Power Stations, 372; (Letters), 432, 445, 483
Centaur, Single-driving Express Engine, Nasmyth, Gaskell and Co., 289
Chance Brothers and Co.'s Lights for Aerial Lighthouses, 500
Christiani and Nielsen, Large Reinforced Concrete Piles and Floating Pile Driver, 599, 602
Churchward, G. J., Locomotive Wheel-balancing Machine, 354, 355
Clayton and Shuttleworth's Abbey Works, Lincoln, 422 (*Two-page Supplement, April 23rd*, 1920
Clayton and Shuttleworth, 5-Ton Steam Wagon, 650, 654
Consolidated Pneûmatic Tool Company, Limited, Portable Pneumatic Plant for Welding Work, 457
Constan Detachable "Pusher" for Cargo Boats, 600
Cooke Engraving and Profiling Machine, 630, 631
Costeira Shipyard, Brazil, 168, 173; (Correction), 202
Cradock's Non-corroding Locked-coil Wire Rope, 656
Curraghmore, Irish Channel Turbine Steamer, W. Denny and Brothers, Limited, 186, 248, 252 (*Two-page Supplement, February 20th*, 1920) (*Four-page Supplement, March 5th*, 1920)

D

DARLINGTON, Royal Agricultural Show at, 650, 654
Deane, Mr. Bernard, Tubes for Motor Vehicle Radiator, 484; (Note), 511: (Letter), 528
Delhi, H.M. Light Cruiser, 16 (*Supplement, January 2nd*, 1920)
Denny, W., and Brothers, Limited, L. and N.W.R. Company's Irish Channel Steamer Curraghmore, 186, 248, 252 (*Two-page Supplement, February 20th*, 1920) (*Four-page Supplement, March 5th*, 1920)
d'Eyncourt, Sir Eustace, on H.M.S. Hood, 92, 93, 313, 314, 315, 324, 330 (*Four-page Supplement, March 26th*, 1920)
Dorada Ropeway in Colombia, Ropeways, Limited, 504, 511; (Letters), 552, 572, 597
Dover Harbour, Electric Jib Cranes at, Babcock and Wilcox, Limited, 111, 116
Dufty's Regulating System for Car Lighting Dynamo, 367, 368
Dunleary, Motor Lifeboat, S. E. Saunders and Co., 294, 295, 298
Dunlop, James, on the Development of Locomotive Valve Gear, 618

E

EAST Greenwich, Fuel Research Station at, 421; (Letters), 445, 499, 552
Eccles, W., and the Metropolitan-Vickers Electrical Company, Alignment Meter for Turbine Gearing, 559
Edgcumbe, Major K., on Protection of Alternating-current Systems, 200

F

FAIR, W. D., and Co., Detachable Motor for Boats, 346, 347
Fairbairn, W., and Sons, Manchester, E. L. Ahrons, 184; (Letter), 357
Farey's Book, Facsimile of Page in, 519
Federated Malay States Government Railways, Works for, 440
Fessenden Oscillator, 491
Fletcher, George, and Co.'s Filter Presses for Removal of Paraffin Wax from Petroleum, 121
Ford Motor Radiator with Deane Tubes, 484
Fowler Eight-furrow Turning Plough, 650, 654
Francis Turbine Runners, 110
French Cruiser Dupuy-de-Lôme Converted to Belgian Cargo Boat, 270
Fullagar—*see* Cammellaird

G

GALLOWAYS' Uniflow Steam Engines, 454, 455, 480
General Electric Company, Automatic Arc-welding Machine, 220
German Warships Damaged at the Battle of Jutland, 194, 195, 198, 199
Gibb, Maurice S., on Observing Temperatures in Marine Propelling Installations, 226
Gibson, A. H., on the Air Cooling of Petrol Engines, 173
Gill Propeller Company's Propulsion Mechanism for Motor Boats, 346, 347
Gleniffer Motors, Limited, Motor Boat Engine and Propeller, 302, 320, 321
Grace Carburetter, 620
Grahame-White Company, Limited:
Five-seater Aero-limousine, 34, 35
Nine-seater Aero-limousine, 34, 35
Single-seater Aeroplane, 80 H.P. Bantam, 32, 35
Grand Trunk Railway Bridge Across Niagara, Strengthening Spans, 230
Great Central Railway Powdered Fuel Locomotive, 18 (*Supplement, January 2nd*, 1920)
Great Eastern Railway, Stratford Works, 426, 430
Great Northern Three-cylinder Engine, No. 1000, 466
Great Western Eight-coupled Engine, No. 4700, 19, 582 (*Supplement, January 2nd*, 1920) (*Two-page Supplement, June 4th*, 1920)

H

HANDLEY Page "Flying Saloon" Biplane, 7 *Supplemen', January 2nd*, 1920)
Hatfield Pumps for Fire-float, Merryweather and Sons, Limited, 397, 398
Hawkins, H.M. Light Cruiser, 16 (*Supplement, January 2nd*, 1920)
Herbert, Alfred, Capstan Lathe, 632
Herbert, Alfred, Small Surface Grinding Machine, 657
Hick, Hargreaves and Co., 644, 645
Holland, Electrification of, 557
Hood, H.M. Battle-Cruiser, John Brown and Co., Limited, 92, 93, 313, 314, 315, 324, 330 (*Four-page Supplement, March 26th*, 1920)
Hulse and Co.'s Crank Shaft Turning Machine, 350, 358
Humphrey Autographic Notched Bar Testing Machine, 63
Hydraulic Engineering Company, Earth Thrust Borer' 369, 376

I

IPSWICH Dock Extensions, 114
Itaquatia, Launch of the, at the Costeira Shipyard, Brazil, 168, 173; (Correction), 202

J

JENKINS, Rhys, Links in the History of Engineering, 162, 519
Jones and Potts, Newton-le-Willows, E. L. Ahrons, 508
Jutland, German Warships Damaged at the Battle of, 194, 195, 198, 199

K

KAIONE, Suction Dredger for New Zealand, 373
Kearton, W. J., on Pinions and Shafts for Double Helical Gears, 186
King-Salter, J. J., on Balancing of Turbine Rotors and Propellers, 369, 381
Knox, Commander H. G., on the Use of Acetylene in U.S. Navy Yards during the War, 164

L

L 33, H.M. Submarine, Swan, Hunter and Wigham Richardson, Limited, 139
Lady Emerald, Steamship, 14
Lake Grampian, Steamship, 14
Lancashire and Yorkshire Railway, Power Signalling at Southport, 142, 150
Laxtonia Engineering Company's "Twin-Six" Motor Car Engine, 252
Leeds Forge Company, Railway Tank Wagon for Conveyance of Ammonium Nitrate, 176
Leitner Dynamo, Rotax Company, 366, 367
Lindsay, F. E., on Measuring an Involute Bevel Gear from the True Pitch Cone, 581
Livingstone and Cooper, War Service Tug Spry, 96 (*Two-page Supplement, January 23rd*, 1920)
London, Brighton and South Coast Railway Works at Brighton and Lancing, 568, 578
London and North-Western Railway Company's Irish Channel Steamer Curraghmore, W. Denny and Brothers, Limited, 186, 248, 252 (*Two-page Supplement, February 20th*, 1920) (*Four-page Supplement, March 5th*, 1920)
London and South-Western Railway, Six-coupled Goods Locomotive, 458
Lucas Electrical Company's Equipment for Motor Cars, 367, 403, 404
Luke and Spencer's "Paddle" Tool Grinder, 511

M

MANGNALL, Captain A. R., Thrust Borer in Earth, 369, 376
Margaret Harker-Smith, Motor Lifeboat, S. E. Saunders and Co., 294, 295, 298
Marshal Ney, H.M. Monitor, 750 B.H.P. Engines, 358
Marshall Field Building, Chicago, Underpinning, 640, 641
Marshall, 16 B.H.P. Portable Oil Engine, 650, 654
Mather and Platt, Limited, High-pressure Pumping Set, 228
Melbourne Suburban Railways Electrification, 40, 44, 66, 70
Mélot, F., Propulseur-Trompe, 64; (Letters), 90, 189
Mercury Mechanical Motor Car Cut-out, 368
Merryweather and Sons Fire-float, and Salvage and Fire Tug, 396, 397, 400
Mesopotamia, Irrigation and Cotton Growing in, 133
Metcalfe, A. W., on the Swiss Rhone-Rhine Navigation Project, 212, 264, 290, 341, 389
Metropolitan Railway New Type Coach, 20
Mills Hand Grenade Manufacture at Brighton Works, London, Brighton and South Coast Railway, 568, 578
M.L. Oscillating, High-tension Magneto, 600
Moonfleet, Fire Tug for Elswick, Merryweather and Sons, Limited, 396, 397, 398
Myers Building, Albany, N.Y., Underpinning, 639, 640

N

NARRAGANSETT, Oil-engined Motor Tanker, Vickers Limited, 501
Nasmyth, James (Portrait), 287
Nasmyth's Design for Floating Mortar, 288
Nasmyth's Steam Hammer, 287
Nasmyth, Wilson and Co., Limited, 287
Newport Power Station, Melbourne Suburban Railways, 40, 44
New Zealand Suction Dredger Kaione, 373

North-Eastern Marine Engineering Company's Marine Superheater, 256
North-Eastern Railway Goods Locomotive, 524
North-Eastern Three-cylinder Eight-coupled Mineral Engine, 19 (*Supplement, January 2nd*, 1920)

O

OLYMPIA, Motor Boat and Marine and Stationary Engine Exhibition, 302, 320, 345

P

"PADDLE" Tool Grinder, Luke and Spencer, Limited, 511
Paris Aviation Show, 37, 63
Paris, Lyons and Mediterranean Railway, Oil Fuel Burning on the, 494
Pearn, Frank, and Co., Two Horizontal Vacuum Pumps, 74
Pearson's 9ft. Driver Engine of 1853, 598
Peel, D. P., on Timing Diesel Engine Valves, 559
P. and O. Liner Macedonia, 14
Peterborough Tractor and Engine, 650, 654
Physical and Optical Societies' Exhibition, 62
Pilling, Henry, on the Uniflow Steam Engine, 454, 455, 480
Platypus, Submarine Depôt Ship, John Brown and Co., Limited, 218, 222
Pointolite Lamp, 62
Potez Sporting Aeroplane, 37
Powdered Fuel Plant Company's Aero-pulveriser, 306
Powell and Hanmer Dynamo, Switchboard and Cut-out, 366
Premier Four-cylinder 1000 B.H.P. Gas Engine 526 (*Two-page Supplement, May 21st*, 1920)
Primrose, J. S. G., on Railway Dynamometer Cars, 530, 534

Q

QUEEN'S Insurance Company's Building, New York, Underpinning, 641

R

REGENT Shears (1918), Limited, Sheet Metal Working Machines, 606
Rhone-Rhine—*see* Swiss
Robertson, John, Marine Engine, 618
Robson, A. G., on Position Gauges, Their Jigs, Construction and Calculations, 157
Robson, A. G., on Precision Gauges and their Jigs, 574, 575
Ropeways, Limited, Dorada Ropeway in Colombia, 504, 511; (Letters), 552, 572, 597
Rothwell and Co., Bolton, E. L. Ahrons, 598
Royal Agricultural Show at Darlington, 650, 654

S

SAINT PAUL, High-Service Reservoir at, 218, 240
Salerno, Diesel Engine Ship, 446, 447, 450
Saunders, S. E., and Co., Motor Lifeboats, 294, 295, 298
Scholey and Co., Limited, Manufacture of Small Electric Motors, 328, 329
Scotch Boilers, Superheater for, North-Eastern Marine Engineering Company, 256
Seewer, P. W., Centrifugal Pelton Jet Deflector, 583
Seydlitz—*see* German Warships
Shepherd, J., on Failures of Turbo-generators, &c., 88, 94
Sherardising Small Articles, Apparatus for, 510
Sheringham Artificial Daylight, 62
Shrewsbury and Chester Engine of 1846, 508
Shrewsbury and Hereford Tank Engine of 1856, 509
Shrivell Intercommunication Telephone System, 550
Siddeley Aeroplane Engine, 40 H.P. Two-cylinder Air-cooled, 31, 32
Siebe, Gorman and Co., Limited, Submarine Camera, 658
Silent Guide Automatic Route Indicator, 408
Smith, D. J., on Producer Gas for Motor Vehicles, 122
Smith, Major W. H., Hydraulic Jacks made from Shells, 576
Société Genevoise d'Instruments de Physique, Universal Measuring Machine, 472, 476 (*Two-page Supplement, May 7th*, 1920)
South-Eastern and Chatham Railway Company's Steamer Biarritz, 14
South-Eastern and Chatham Rebuilt Passenger Engine, 19 (*Supplement, January 2nd*, 1920)
Southport—*see* Lancashire and Yorkshire
Spry, War Service Tug, Livingstone and Cooper, Limited, 96 (*Two-page Supplement, January 23rd*, 1920)
Stratford Works, Great Eastern Railway, 426, 430
Submarine Signalling Company's Microphone, Detector and other Devices for Submarine Signalling, 491
Sullivan Machinery Company's Utility Forge Hammer, 202
Svanhild, Steamship, 14
Swan, Hunter and Wigham Richardson, H.M. Submarine L 33, 139
Swiss Railway Dynamometer Car, 530, 534
Swiss Rhone-Rhine Navigation Project, A. Wharton Metcalfe, 212, 264, 290, 341, 389

T

TAYLOR, Joseph, Old Beam Engine, 571; (Letter), 633
Tennessee, United States Battleship, 538
Thompson, J. L., on Transformers for Electric Furnaces, 147
Thornycroft Four-cylinder 21 B.H.P. Paraffin Engine, 345, 346
Tostevin, Engineer-Commander H. B., on Mechanical Reduction Gears in Warships, 368, 405
Trussed Concrete Steel Company, Extensions to Machine Shop at Witton Works, 558
Trussed Concrete Steel Company's Pit Headgear at Lochore, 48

U

UNDERWING, Steamship, 14
Uniflow Steam Engine, Henry Pilling, 454, 455, 480
United States Battleship Tennessee, 538
United States, Craft for Canal and River Service, 593

V

VANDERVELLE, C. A., and Co.'s Electrical Equipment for Motor Cars, 367, 368, 403
Vickers Motor Tanker Narragansett, 501
Vickers Quick-return Broaching Machine, 554, 558
Vickers Viking Amphibious Aeroplane, 655
Vickers-Vimy Commercial Aeroplane, 7 (*Supplement, January 2nd*, 1920)
Virginian Railway Mallet Locomotive, 381 (*Two-page Supplement, April 9th*, 1920)
Volcano Steam Sloop as Factory during Crimean War, James Nasmyth, 288
Vulcan Foundry Company's Historic Locomotives, 84, 85; (Letter), 140

W

WALL, A. T., Manœuvring and Reversing Rudders, 149
Watermota, Detachable Motor for Boats, W. D. Fair and Co., 346, 347
Welded Construction Company's Arc Welded Roof, 510
Werkspoor-Diesel Engines for the Salerno, 446, 447, 450
Westland Aircraft Works, Four-seater Limousine, 7 (*Supplement, January 2nd*, 1920)
White, J. S., and Co., Limited, ss. Argonne, 457
William-street Subway, New York, Underpinning, 641
Witherington, H.M. Destroyer, 16 (*Supplement, January 2nd*, 1920)
Witton Works Machine Shop Extensions, in Reinforced Concrete, Trussed Concrete Steel Company, 558
Wood, A. B., Dredger Pump Impeller, 445
Wood's, Nicholas, Gear, 619

—

Subjects.

ELECTRICAL MATTERS:
Arc-welding Machine, Automatic, General Electric Company, 220
Canadian Electric Power Station Industry, 230
CO_2 Recorder, Cambridge and Paul Instrument Company, 62, 63
Fessenden Oscillator, 491
Geared Air Compressor, Motor-driven, Broom and Wade, Limited, 98
Holland, Electrification of, 557
Motor Cars, Electrical Equipment of: 366, 403
Automatic Cut-outs for Motor Cars, Powell and Hanmer, 366; Mercury, 368
Lighting Dynamos for Motor Cars, Brolt Company, Powell and Hanmer, Rotax Co., Vandervelle and Co., Lucas Electric Co., Dufty, 366, 367, 368
Lighting and Starting Sets, Combined, Lucas Electrical Company, 404; American General Electrical Company, 404
Starting Motors for Motor Cars, C. A. Vandervelle and Co.; Lucas, 403, 404
Newport Power Station, Melbourne Suburban Railways, 40, 44; and Jolimont Sub-station, 66, 70
Pointolite Lamp, Edison Swan Electric Company, 62
Protection of Alternating-current Systems, Major K. Edgcumbe, 200
Railways—*see* Railways
Small Electric Motors, Manufacture of, Scholey and Co., Limited, 328, 329
Submarine Signalling Company's Various Devices, 491, 492
Thermo-electricity, Recent Progress in, Carl Benedicks, 617
Transformers for Electric Furnaces, J. L. Thompson, 147

ENGINES AND MOTORS:
Adams "Twin-Six" Motor Car Engine, Laxtonia Engineering Company, 252
Air Cooling of Petrol Engines, A. H. Gibson, 173
Beam Engine, An Old, Joseph Taylor, 571
Beardmore's 120 B.H.P. Four-cylinder Hot-bulb Engine, 347
Bolnes Hot-bulb Engine, A. R. Brown, 320
Brooke Engine, 28 H.P. Six-cylinder, for Motor Boat, 320, 321
Cammellaird-Fullagar Diesel Engine, 107, 132 (*Two-page Supplement, February 6th*, 1920)
Detachable Motor for Boats, W. D. Fair and Co.'s "Watermota," 346, 347
Four-cylinder Hot-bulb Heavy Oil Engine, W. H. Allen, Son and Co., Limited, 278, 279
Gas Engine, Single-crank Four-cylinder Vertical, Premier Gas Engine Company, 526 (*Two-page Supplement, May 21st*, 1920)
Gears, Old Engine, Blenkinsop, Carmichael, Nicholas Wood, 619
General Arrangement of One of H.M. Monitor, Marshal Ney's 750 B.H.P. Engines, 358

ENGINES AND MOTORS (*continued.*)
Gleniffer Motor Boat Engine, 302, 320, 321
Hydraulic Propulsion Mechanism for Motor Launch, Gill Propeller Company, 346, 347
John Robertson Marine Engine, 618
Marine Engines of 1850–1852, Hick, Hargreaves and Co., Bolton, 644, 645
Marine Motors for Fire-float at Elswick, Merryweather and Sons, Limited, 396, 397, 400
Oil Engine, 16 B.H.P. Portable, Marshall, Sons and Co., 650, 654
Paraffin Engine, 21 B.H.P., Thornycroft and Co., 345, 346
Peterborough Agricultural Tractor Engine, 650, 654
Siddeley Aeroplane Engine, 40 H.P. Two-cylinder Air-cooled, 31, 32
Solid-injection Oil Engines of the Narragansett, Vickers Limited, 501
Uniflow Steam Engines, Galloways Limited, 454, 455, 480
Valves, Diesel Engine, Timing, D. P. Peel, 559
Werkspoor-Diesel Engines for the Salerno, 446, 447, 450
ENGINE-ROOM of a Fire-float for Elswick, Merryweather and Sons, Limited, 396, 397, 400
Engineering, Links in the History of, Rhys Jenkins, 162, 519
Engraving and Profiling Machine, T. Cooke and Sons, Limited, 630, 631
Exhibition, Motor Boat and Marine and Stationary Engine, 302, 320, 345
Exhibition, Physical and Optical Societies, 62

F

FILTRATION Plant, Rapid, at Whitacre Pumping Station, Birmingham, 622, 623, 626
Fire-float, and Salvage and Fire Tug, Merryweather and Sons, Limited, 396, 397, 400
Firms, Famous, Short Histories of, 84, 85, 184, 287, 508, 598, 644, 645
Flight and Flying Machines—*see* Aeronautics
Floating Mortar, Nasmyth's Design for, 288
Floors for Railway Underbridges, 391, 416
Forge Hammer, Utility, Sullivan Machinery Company, 202
Forging and Stamping Plant at Abbey Works, Clayton and Shuttleworth, Limited, 422 (*Two-page Supplement, April 23rd*, 1920)
Fuel Research Station at East Greenwich, 421; (Letters), 445, 499, 552

G

GAS ENGINES—*see* Engines
Gauges, Position: Their Jigs, Construction and Calculations, A. G. Robson, 157
Gauges, Precision, and their Jigs, A. G. Robson, 574, 575
Gears, Engine—*see* Engines
Gears, Ships—*see* Ships
Grenade, Mills Hand, Manufacture at Brighton Works, London, Brighton and South Coast Railway, 568, 578
Grinders—*see* Machine Tools
Gyroscopic Compass, Non-mathematical Treatment, 55, 81, 105, 136, 160, 190, 210, 242; (Letters), 140, 357, 395

H

HAMMER, Steam, James Nasmyth, 287
Hammer, Utility Forge, Sullivan Machinery Company, 202
High-pressure Turbine—*see* Turbine
High-service Reservoir—*see* Reservoir
Histories, Short, of Famous Firms, 84, 85, 184, 287, 508, 598, 644, 645; (Letters), 140, 357
History of Engineering, Links in the, Rhys Jenkins, 162, 519
Hot Bulb Engines—*see* Engines
Hydraulic Jack made from Shells, Major W. H. Smith, 576

I

INTERNAL Combustion Engines—*see* Engines
Irrigation and Cotton Growing in Mesopotamia, 133

J

JACK, Hydraulic, Made from Shells, Major W. H. Smith, 576
Jigs and Gauges for Manufacture of a Precision Gauge, A. G. Robson, 574, 575
Jigs for Making Position Gauges, A. G. Robson, 157

L

LAMP, Pointolite, 62
Lathes—*see* Machine Tools
Lifeboats—*see* Ships
Lights for Aerial Lighthouses, Chance Brothers and Co., 500
Links in the History of Engineering, Rhys Jenkins, 162, 519
Locomotive for Blenkinsop Patent Rack Railway, 618
Bristol and Exeter, of 1859, 598
Eight-coupled, No. 4700, Great Western Railway, 19, 582 (*Supplement, January 2nd*, 1920) (*Two-page Supplement, June 4th*, 1920)
for an English Railway Built in 1848, Hick, Hargreaves and Co., 644

Locomotive Fire-box, Burners and Piping Arrangement for Oil Fuel, Paris, Lyons and Mediterranean Railway, 494
Mallet, for the Virginian Railway, 38 (*Two-page Supplement, April 9th*, 1920)
Pearson's 9ft. Driver, of 1853, 598
Powdered Fuel, Great Central Railway, 18 (*Supplement, January 2nd*, 1920)
Rebuilt Passenger, South-Eastern and Chatham Railway, 19 (*Supplement, January 2nd*, 1920)
Single Driving Express, Centaur, Nasmyth, Gaskell and Co., 289
Six-coupled Goods, London and South-Western Railway, 458
Three-cylinder Eight-coupled Mineral Engine, North-Eastern Railway, 19 (*Supplement, January 2nd*, 1920)
Three-cylinder Fast Goods, North-Eastern Railway, 524
Three-cylinder, No. 1000, Great Northern Railway, 466
Valve Gear, Development of, James Dunlop, 618
Wheel-balancing Machine, G. J. Churchward, 354, 355
Locomotives, *circa* 1850, W. Fairbairn and Sons, Manchester, 184; (Letter), 357
Locomotives, Historic, Built by the Vulcan Foundry Company, 84, 85; (Letter), 140
Locomotives of 1841, 1846, 1856, 509

M

MACHINE Shop Extensions, Reinforced Concrete, at Witton Works, Trussed Concrete Steel Company, 558

MACHINE TOOLS:

Broaching Machine, Quick Return, Vicker[s] Limited, 534, 558
Capstan Lathe with Rotating Multiple Stops, Alfred Herbert, Limited, 632
Centralised Control Radial Drilling Machine, J. Archdale and Co., Limited, 303
Drill, Two-speed Electric, Scholey and Co., Limited, 328, 329
Grinding Machine, Small Surface, Alfred Herbert, Limited, 657
High-speed Guillotine Shears, Regent Shears (1918), Limited, 606
Inclinable Power Press, Regent Shears (1918), Limited, 607
Large Crank Shaft Turning Machine, Hulse and Co., Limited, 350, 358
"Paddle" Tool Grinder, Luke and Spencer, 511

MAGNETO, Oscillating High-tension Magneto, The M.L., 600
Manœuvring and Reversing Rudders, A. T. Wall, 149

MAPS:

Birmingham District, Geology of, in Relation to Water Supply, 646
Federated Malay States Railways, Works for, 440, 441, 442
Geneva and Seyssel, Suggested Navigation Works between, 265
Holland, Proposed Network of Electric Transmission Lines, 557
Melbourne Suburban Railway System, 44
Mesopotamia, Showing Proposed Irrigation Areas, 135
Rhone-Rhine Navigation, Proposed, 212, 265, 290, 291, 341

MARINE Engines—*see* Engines
Marine Propelling, &c.—*see also* Ships
Measuring an Involute Bevel Gear from the True Pitch Cone, F. E. Lindsay, 581
Measuring Machine—*see* Universal
Mechanical Reduction Gears in Warships, Engineer-Commander H. B. Tostevin, 368, 405
Metal Working Machines—*see* Machine Tools
Meter, Alignment, for Turbine Gearing, W. Eccles and the Metropolitan-Vickers Electrical Company, 559
Microphones, Submarine Signalling Company, 491, 492
Motor Boats—*see* Ships; *also* Exhibitions
Motor Boat and Motor Car Engines—*see* Engines
Motor Cars, Electrical Equipment of, 366—*for details see* Electrial Matters
Motor Vehicle Radiator with Deane Tubes, 484; (Note), 511; (Letter), 528

N

NAVIGATION Project, Swiss Rhone-Rhine, A. Wharton Metcalfe, 212, 264, 290, 341, 389
Navvy—*see* Steam Navvy
Notched Bar Testing Machine, Humphrey Autographic, 63

O

OBSERVING Temperatures in Marine Propelling Installations, Maurice S. Gibb, 226
Oil Engines—*see* Engines
Oil Fuel Locomotive Fire-box, Piping and Burners, Paris, Lyons and Mediterranean Railway, 494
Oscillating High-tension Magneto, The M.L., 600
Oscillator, Electro-magnetic, R. A. Fessenden, 491

P

PARAFFIN Engines—*see* Engines
Paraffin Wax, Removal of, from Petroleum, Filter Presses for, George Fletcher and Co., 121
Pelton Water Wheel Jet Deflector, P. W. Seewer, 583
Petrol Engines—*see* Engines
Petroleum, Filter for Removal of Paraffin Wax, 121
Piles and Floating Pile Driver, Large Reinforced Concrete, Christiani and Nielsen, 599, 602
Pinions and Shafts for Double Helical Gears, W. J. Kearton, 186
Plans, Storing, 230
Plough, Eight-furrow Turning, John Fowler and Co. (Leeds), Limited, 650 654
Pneumatic Plant, Portable, for Welding Work. Consolidated Pneumatic Tool Company. Limited, 457
Portable Engines—*see* Engines
Portable Wireless Receiver, British Thomson-Houston Company, 394
Portrait, Harry Samuel Bickerton Brindley, 378
Portrait, James Nasmyth, 287
Position Gauges, Their Jigs, Construction and Calculations, A. G. Robson, 157
Power, Electric, Stations—*see* Electrical Matters, 230
Power Press—*see* Press
Power Signalling on the Lancashire and Yorkshire Railway, 142, 150
Precision Gauges and their Jigs, A. G. Robson, 574, 575
Press, Power, Inclinable, Regent Shears (1918) Limited, 606
Producer Gas for Motor Vehicles, D. J. Smith, 122
Propelling Machinery for H.M.S. Hood—*see* Ships
Propulseur-Trompe—*see* Aeronautics
Protection of Alternating-current Systems, Major K. Edgcumbe, 200
Pump, Centrifugal, for Handling Tree Stumps, 445
Pumping Set, High-pressure Turbine, Mather and Platt, Limited, 228
Pumps for Fire Tug Moonfleet, 397, 398
Pumps, Two Horizontal Vacuum, F. Pearn and Co., Limited, 74
"Pushers"—*see* Ships

R

RADIATOR, Motor Vehicle, with Deane Tubes, 484; (Note), 511; (Letter), 528
Railway Coach, New Type, Metropolitan Railway, 20
Railway Dynamometer Cars, J. F. G. Primrose, 530, 534
Railway Signalling, Power, on the Lancashire and Yorkshire Railway at Southport, 142, 150
Railway Tank Wagon for Conveyance of Ammonium Nitrate, Leeds Forge Company, 176
Railway Underbridges, Floors for, 391, 416
Railway Workshop Cars, Great Eastern Railway Company, 426, 430
Railway Workshops, British, in War Time, Stratford Works of the Great Eastern, 426, 430
Railways, Federated Malay States Government, Works for, 440
Railways, Melbourne Suburban, Electrification, 40, 44, 66, 70
Recent Advances, &c.—*see* Water Power
Reinforced Concrete Extensions to Machine Shop at Witton Works, Trussed Concrete Steel Company, 558
Reinforced Concrete Piles and Floating Pile Driver, Christiani and Nielsen, 599, 602
Reinforced Concrete Pit Headgear at Lochore, 48
Reservoir, High-service, at Saint Paul, 218, 240
Ropes, Locked-coil Wire, Prevention of Corrosion in, G. Cradock and Co., Limited, 656
Ropeway, Dorada, in Colombia, Ropeways, Limited, 504, 511; (Letters), 552, 572, 597
Rotors—*see* Turbine Rotors
Route Indicator, Automatic, The Silent Guide Company, Limited, 408
Rudders, Manœuvring and Reversing, A. T. Wall, 149

S

SHEARS—*see* Machine Tools
Sheet Metal Working Machines, Regent Shears (1918), Limited, 606

SHIPS AND SHIPPING MATTERS:

General:

From Cruiser to Merchantman, 270
Marine Engines—*see* Engines
Marine Propelling Installations, Observing Temperatures in, Maurice S. Gibb, 226
Mechanical Reduction Gears in Warships, Engineer-Commander H. B. Tostevin, 368, 405
"Pushers" for Cargo Boats, Monsieur Constan, 600
Some Mercantile Vessels of 1919, 14, 20
South American Shipyard Acquired by J. I. Thornycroft and Co., Limited, 168, 173; (Correction), 202

British Navy:

Delhi, H.M. Light Cruiser, 16 (*Supplement, January 2nd*, 1920)
Hawkins, H.M. Light Cruiser, 16 (*Supplement, January 2nd*, 1920)
Hood, H.M. Battle-Cruiser, John Brown and Co., Limited, 92, 93, 313, 314, 315, 324, 330 (*Four-page Supplement, March 26th*, 1920)
L 33, H.M. Submarine, Swan, Hunter and Wigham Richardson, 139
Platypus, Submarine Depot Ship, John Brown and Co., Limited, 218, 222
Witherington, H.M. Destroyer (*Supplement, January 2nd*, 1920)

Foreign Navies:

Dupuy-de-Lôme, The Old French Cruiser, Converted to Cargo Boat, 270
German Warships Damaged at the Battle of Jutland, 194, 195, 198, 199
United States Battleship Tennessee, 538
Use of Acetylene in U.S. Navy Yards during the War, Commander H. G. Knox, 164

Miscellaneous Vessels:

Argonne Steamship, J. S. White and Co., Limited, 457
Balboa, M.S., 14
Batanes, Steamship, 14
Craft for Canal and River Service in the United States, 593
Fire-float for Elswick, Merryweather and Sons, Limited, 396, 397, 400
Fire Tug Moonfleet, Merryweather and Sons, Limited, 396, 397, 398
Itaquatia at the Costeira Shipyard, Brazil, 168, 173; (Correction), 202
Lady Emerald, Steamship, 14
Lake Grampian, Steamship, 14
London and North-Western Railway Company's Irish Channel Turbine Steamer Curraghmore, W. Denny and Brothers, Limited, 186, 248, 252 (*Two-page Supplement, February 20th*, 1920) (*Four-page Supplement, March 5th*, 1920)
Motor Lifeboat Dunleary, S. E. Saunders and Co., 294, 295, 298
Motor Lifeboat Margaret Harker-Smith, S. E. Saunders and Co., 295, 298
Narragansett, Motor Tanker, Trial Trip, Vickers Limited, 501
P. and O. Liner Macedonia, 14
Peruvier, French Cruiser Converted to Belgian Cargo Boat, 270
Salerno, Diesel Engine Ship, 446, 447, 450
South-Eastern and Chatham Railway Company's Steamer Biarritz, 14
Spry, War Service Tug, Livingstone and Cooper, Limited, 96 (*Two-page Supplement January 23rd*, 1920)
Steel Barges for New York State Barge Canal System, 596
Steel Towing Boats and Cargo Barges for the Mississippi River, 593, 594
Svanhild, Steamship, 14
Towing Boats and Self-propelled Barges for Alabama Waterways, 593, 594
Underwing, Steamship, 14
Volcano Steam Sloop as Factory during Crimean War, James Nasmyth, 288

LOCOMOTIVES AND ROLLING STOCK IN 1919, 18
(*Supplement. January 2nd*, 1920)
Great Central, 18
Great Eastern, 19
Great Northern, 19
Great Western, 19
London and North-Western, 18
London and South-Western, 19
North-Eastern, 19
Scottish and Irish Railways, 19
South-Eastern and Chatham, 19
Rolling Stock, 19
Great Eastern, 20
Great Northern, 19
Metropolitan, 20
North British, 20
South-Eastern, 20
MARINE ENGINEERING IN 1919, 22
MERCHANT SHIPPING IN 1919, 14, 20
American Competition, 21
Auxiliary Schooners, 21
Belgium, 21
British Cargo Steamers, 21
British Passenger Steamers, 20
Concrete Ships, 21
France, 21
General Survey, 14, 21
Germany, 21
Holland, 21
Italy, 21
Japan, 21
Minor Craft, 21
Royal Dockyards, 21
Scandinavia, 21
METALLURGY IN 1919, 36

ANNUAL ARTICLES (*continued.*)

NAVAL CONSTRUCTION IN 1919, 16
France, 17
Great Britain, 16 (*Supplement, January 2nd*, 1920)
Italy, 17
Japan, 17
Minor Navies, 18
United States, 17
RAILWAY SPEED IN 1919, 59
WATER SUPPLY AND SANITARY ENGINEERING IN 1919, 10
Activated Sludge Process, 12
Contact Beds, 11
General Conditions, 10
Increase in Costs, 10
Insect Life on Sewage Filters, 11
Last of "The Lakes" Available? 11
London Main Drainage, 10
Manchester's Hawes Water Scheme, 11
Metropolitan Water Board, 11
Sewage Treatment and By-products, 12
Sheffield's Novel Proposals, 11
War Work, 10
APOCHROMATIC Lenses, British, 86
Apprentices, Education and Training of, 254
Arc-welded Building Construction, Welded Construction Company, 510
Arc-welding—*see also* Electrical Matters
Arnold, J. D., on the Properties of Water-quenched Vanadium-Molybdenum High-speed Steel, 480.
Art and Engineering, 477
Art of Reading, 605
Artillery Shells, Semi-steel for, 662

ASSOCIATIONS, INSTITUTIONS & SOCIETIES:

Association of Engineers, Manchester:
British Blast-furnace Practice, W. H. Buckley, 246
Cast Iron in Theory and Practice, E. Adamson, 73
Production Methods by the Ford Motor Company, Thomas Gorst, 293
Uniflow Steam Engine, Henry Pilling, 454, 455, 480
Visit to Alfred Herbert's Works, 632
Works Management and the Human Element, H. Mensforth, 128

Association, Incorporated Municipal Electrical:
Power Station Design in Relation to Thermal Efficiency, J. V. Robinson, 655
Twenty-fifth Annual Convention, Programme, 481

Institute, Iron and Steel:
Annual Meeting, 348, 473, 496, 521
Annual Meeting (Adjourned) at Sheffield, 547
British Blast-furnace Practice, F. Clements, 496
Brittleness in Nickel-Chrome and Other Steels, Dr. F. Rogers, 548
Carnegie Research Fund Awards, 521
Chromium Steels: Effect of Heat Treatment on Electrical Resistivity, Professor C. A. Edwards and A. L. Norbury, 547
Dinner and Conversazione, 498
Direct Current Compared with Three-phase Current for Driving Steel Works Plant, C. A. Ablett, 521
Distribution of Phosphorus in Steel Between the Points Ac 1 and Ac 3, J. H. Whiteley, 524
Economical and Thermal Conditions in Blast-furnace Practice, H. E. Wright, 496
Effect of Initial Temperature upon the Physical Properties of Steel, Dr. J. H. Andrew and others, 548
Effect of Various Elements on Electrical Resistivity of Iron, A. L. Norbury, 548
Fifty Years of Progress in the Ferrous Industries, Presidential Address, Dr. J. E. Stead, 473, 496
Practical Notes on the Design and Treatment of Steel Castings, G. F. Preston, 524
Programme of Meetings, 348
Reduction of Silicon from the Slag in the Acid Open-hearth Process, B. Yaneske and G. A. Wood, 522
Slag Conditions in Open-hearth Basic Steel-making Practice, Jno. F. Wilson, 522
Some Defects in Electro-deposited Iron, W. E. Hughes, 523
Structural Constitution, Hardening and Tempering of High-speed Steel containing Chromium and Tungsten, Kotaro Honda and Takejiro Murakami, 548
Structure of Some Chromium Steels, J. H. G. Monypenny, 547
"The Ball Test," A Note on, Dr. T. Baker and T. F. Russell, 523
Valuation of Ores and Iron-making Material, C. H. Ridsdale, 496

Institute of Marine Engineers:
Timing Diesel Engine Valves, D. P. Peel, 559

Institute of Metals:
Action of Aluminium on Hard Industrial Waters, Dr. R. Seligman and Mr. P. Williams, 292
Annual General Meeting, 229, 291, 318
Art of Casting in High-tensile Brass, J. Neil Maclean, 318

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

Institute of Metals (*continued*):
Copper, Commercially Pure, Effect of Progressive Drawing upon some Physica Properties of, W. B. Alkins, 319
Copper, Physical Properties of, Influence of Cold Rolling on, F. Johnson, 319
Corrosion Committee, Fifth Report, 229, 267, 292
Effect of Hydrogen on Copper, W. C. Hothersall and E. L. Rhead, 319
Idiomorphic Crystals of Electro-deposited Copper, W. E. Hughes, 319
Investigation on the Constitution of Alloy Systems, J. L. Haughton, 319
Model for Representing the Constitution of Ternary Alloys, Dr. Rosenhain, 319
Polishing and Etching of Zinc for Micro-examination, H. H. Hayes, 319
Presidential Address by Admiral Sir G. Goodwin, 229, 268, 292
Programme and List of Papers, 229
Removal of Internal Stress in 70:30 Brass by Low-temperature Annealing, H. Moore and S. Beckinsale, 318
Tin-Phosphorus Alloys, A. C. Vivian, 319
Zinc Alloys with Aluminium and Copper, Dr. Rosenhain, Mr. J. L. Haughton and Miss K. Bingham, 319

Institute of Physics:
Foundation of, 488

Institute of Transport:
Committee on Inland Waterways Appointed, 584
Presidential Address, Sir Eric Geddes, Transport in Relation to the State, 332
Some Railway Operating Problems, Major-General Sir H. W. Thornton, 560; (Paragraph), 649

Institution of Automobile Engineers:
Air Cooling of Petrol Engines, A. H. Gibson, 173
Producer Gas for Motor Vehicles, D. J. Smith, 122

Institution of Civil Engineers:
Fuel Conservation in the United Kingdom, "James Forrest" Lecture, Sir D. Clerk, 418
October Examinations, 1919, Pass List, 284
Pass List (Interim), April Examinations, 1920, 637
Registration Bill, 90; (Letters), 37, 174, 188, 254, 272, 293, 326, 357, 371, 395

Institution of Electrical Engineers
Debate on Distribution of Heat, Light and Motive Power by Gas and Electricity, Sir D. Clerk, and Report on the Coal-gas and Electrical Supply Industries of the United Kingdom, Sir D. Clerk and Professors A. Smithells and J. W. Cobb, 652
Failures of Turbo-generators and Suggestions for Improvements, J. Shepherd, 88
Note on Thermal Efficiency of Generation and Use of Gas and Electricity, Sir D. Clerk, 652
Protection of Alternating-current Systems, Major K. Edgcumbe, 200
Transformers for Electric Furnaces, J. L. Thompson, 147

Institution of Gas Engineers:
Report on Coal-gas and Electrical Supply Industries of the United Kingdom, Sir D. Clerk, Professors A. Smithells and J. W. Cobb, 652

Institution of Mechanical Engineers
Annual Dinner, 444
Annual General Meeting, 224, 271
Benevolent Fund, 488
Exact Data on the Performance of Mechanical Stokers as Applied to Lancashire or other Narrow-flued Boilers, D. Brownlie, 316
Hardening of Screw Gauges, W. J. Lineham 318, 443
Hardness Testing of Metals, Sir Robert Hadfield's Prize, 527
Meetings, 124, 316
Recent Advances in Utilisation of Water Power, E. M. Bergstrom, 110, 124, 146, 172, 271
MANCHESTER ENGINEERS' CLUB—Repetition of Papers Read in London:
Cutting Power of Lathe-turning Tools, George Burley, 12
Exact Data on the Performance of Mechanical Stokers, &c., D. Brownlie, 379
Hardening of Screw Gauges, W. J. Lineham, 478

Institution of Municipal and County Engineers:
Annual General Meeting, 525

Institution of Naval Architects:
Annual Meetings Programme, 280
Annual Report of the Council, 328
Balancing of Rotors and Determining the Position and Amount of the Balancing Weights, J. J. King-Salter, 369, 381
Committee's Report on the Education and Training of Apprentices, 254, 328

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

Institution of Naval Architects (*continued.*)
Conference, 328, 342, 368
Effect of Size upon Performance of Rigid Airships, C. I. A. Campbell and C. H. May, 344
Effects of Holes, Cracks and Other Discontinuities in Ships' Plating, Professor E. G. Coker and A. L. Kimball, 344
Experience and Practice in Mechanical Reduction Gear in Warships, Commander H. B. Tostevin, 368, 405
Freeboard and Strength of Ships, Dr. J. Bruhn, 343
Further Notes on Dimensions of Cargo Steamers, J. Anderson, 343
German Submarines, A. W. Johns, 331
Our Economic Position as a Shipbuilding Country, Sir A. Yarrow, 342, 351; (Letter), 357
Stabilisation of Ships by Means of Gyroscopes, P. R. Jackson, 343, 344
Turbulent Fluid Motion and Skin Friction, Professor T. H. Havelock, 369
Yawing of Ships and Oscillation Among Waves, Dr. K. Suyehiro, 344

Institution, North-East Coast, of Engineers and Shipbuilders:
Bibliographical Papers, Novel Competition, 605
Observing Temperatures in Marine Propelling Installations, Maurice S. Gibb, 226
Standardisation of Ships' Details, 599

Institution of Petroleum Technologists:
Spontaneous Ignition Temperatures of Liquid Fuels, Harold Moore, 111

Institution, Royal:
Experimental Studies in the Liquid State, Lectures, Sidney Skinner, 424, 444

Institution of Sanitary Engineers:
Summer Meeting in London, 614; Programme, 614

Institution of Water Engineers:
Summer General Meeting, Twenty-fifth, at Birmingham, 511

Societies, Faraday, Royal Microscopical, Optical, and Photomicrographic:
A Symposium on the Microscope, 85
Metallurgy and Metallography, Dr. Rosenhain, 86
Metallurgy, Sir R. Hadfield on the Use of the Microscope as Applied to, 85
Metals, High-power Photomicrography of, Dr. F. C. Thompson, 86
Microscope: Its Design, Construction and Application, A Symposium by the Faraday and Other Societies, 85
Microscope Manufacture, Papers by Conrad Beck, J. Watson Baker and Powell Swift, 86
Microscope, Petrological, The Requirements of a, Dr. J. W. Evans, 86
Microscopes, Mechanical Design of, Professor F. J. Cheshire, 85
Microscopes, Metallurgical, Construction and Design of, Dr. C. H. Desch, 86
Photomicrographs of Iron and Steel at High Magnification, Sir R. Hadfield and Mr. T. G. Elliott, 85, 86
Photomicrography of Metals, J. H. G. Monypenny, 86

Societies, Physical and Optical:
Exhibition, Sheringham Daylight, Glass, Optical Instruments, Wireless Apparatus, Pointolite Lamp, CO_2 Recorder, Testing Machines, 62
Some Polarisation Experiments, Professor F. J. Cheshire, 62
Use of Light in the Transmission and Reproduction of Speech, Professor A. O. Rankine, 62

Society of Chemical Industry:
Compounded Lubricating Oils, H. M. Wells and J. E. Southcombe, 145
MANCHESTER SECTION—
New Characteristic for Coal: The Agglutination Curve, Capt. F. S. Sinnott and Mr. A. Grounds, 167

Society of Engineers:
Registration of Engineers, 90; (Letters), 37, 174, 188, 254, 272, 293, 326, 357, 371

Society, Faraday:
Basic Slag, General Discussion, 373

Society, Liverpool Engineering:
Developments in Turbine Propulsion, R. J. Walker, 607
Manœuvring and Reversing Rudders, A. T. Wall, 149
Report on Engineering Training, 90

Society, Royal:
Conversazione, 507
Sir Ernest Rutherford's "Bakerian Lecture," 603

Society, Royal Aeronautical:
Paper by Sir Sefton Brancker, 478

Society, Royal, of Arts:
Commercial Application of Electrical Osmosis, J. S. Highfield and Others, 549

Society, Royal Meteorological:
Status of the Meteorological Office, 228

AUSTRALIA, Engineering Standards Association for, 374
Australian Notes, 218
Automatic Route Indicator, Silent Guide Company, Limited, 408
Automatic Train Control—*see* Railways

B

BAKER, Dr. T., and T. F. Russell, on the Ball Test, 523
Balancing of Rotors and Determining the Position and Amount of the Balancing Weights, J. J. King-Salter, 369, 381
Basic Slag, 373
Beam Engines—*see* Engines
Bearings, Multiple Spring Thrust, 271
Belgian Engineering Notes, 413, 463
Brussels Fair, 463
Engineering Exhibits, 463
Inflation of Prices, 413
Labour, 413
Reconstitution, 413

BENEDICKS, Carl, on Recent Progress in Thermo-electricity, 617
Bergstrom, E. M., on Recent Advances in Utilisation of Water Power, 110, 124, 146, 172, 271; (Random Reflection), 118
Bibliographical Papers, Competition, 605
B.S.A. Small Tools Works, 266, 274
Birmingham Water—*see* Water Supply
Blast-furnaces—*see* Iron and Steel
Boats—*see* Ships
Boiler Explosions, 93, 189; (Letters), 139
Boiler Tube Failure, T. G. Otley, 511
Boilers, Narrow-flued, Mechanical Stokers Applied to, D. Brownlie, 316, 379; (Letters), 395, 432, 445, 483, 499, 528, 552, 573
Boilers, Scotch, Superheater for, North-Eastern Marine Engineering Company, 256
Boilers, Steam, Oil-fired, on the Narragansett, 501
Boilers and Turbines of the Curraghmore—*see* Ships, London and North-Western Steamship
Books of Reference, 97, 255, 348, 448, 533, 633
Brass, High-tensile, Art of Casting in, J. N Maclean, 318
Brass, 70 : 30, Removal of Internal Stress in, by Low Temperature Annealing, H. Moore and S. Beckinsale, 318
Bridge Repairer's Device, 230
British Blast-furnace Practice, W. H. Buckley, 246

British Engineering Standards Association:
Gears, Standardisation of, for Machine Tools, 217
New Nominations, 331
Ships' Details, Standardisation of, 599

British Foundrymen's Institution:
Research Association, 624

British Industries Fair, 215
British Non-ferrous Mining Industry, 552
British Railway Workshops in War Time, 426, 430, 568, 578

Short Notices (*continued*):

Aeroplane Design, Theory and Practice of, S. T. G. Andrews and S. F. Benson, 379
All About Anthracite, A. L. Summers, 379
Boiler Feed Water: Effects, Treatment, and Analysis, P. G. Jackson, 453, 479
Case for Capitalism, Hartley Withers, 507, 580
Costing Problem, E. T. Elbourne, 22, 379
Dyeing Industry, S. H. Higgins, 379
Electric Power Transmission, Alfred Still, 353
Engineering Draughtsman, E. Rowarth, 429, 507
Forests, Woods, and Trees in Relation to Hygiene, Augustine Henry, 507, 605
Foster's Pocket Reference Books, Mrs. Frank Foster, 301
Glass Manufacture, Walter Rosenhain, 73
Heat and Heat Engines, Examples in, T. Peel, 22, 379
Indicator Handbook, C. N. Pickworth, 581, 605
Industry and Finance (Supplementary Volume), Adam W. Kirkaldy, 453, 507
Labour Difficulties and Suggested Solutions, W. J. Deeley, 479, 580
Machine Drawing for Electrical Engineers, Text-book on, Edward Blythe, 507, 533
Metallography, Principles of, Robert S. Williams, 429
Metals in Aircraft Construction, Wilfred Hanby, 533, 605
Mineralogy of the Rarer Metals, E. Cahen and W. O. Wooton, 453
Modern Illuminants and Illuminating Engineering, Leon Gaster and J. S. Dow, 353
Molesworth's Pocket Book of Engineering Formulæ, 1919, 73
Ozone, E. K. Rideal, 653
Pyrometry, C. R. Darling, 653
Rectangular Areas, 429
Scientific Factory Management, A. D. Denning, 22, 353
Standard Rubber Tires for British Standard Rims, 453
Steamship Coefficients, Speeds and Powers C. F. A. Fyfe, 533, 605
Steel Works Analysis, J. O. Arnold and T. Ibbotson, 43, 353
Talks with Workers on Wealth, Wages and Production, 429 507
Use of Low-grade and Waste Fuels for Power Generation, J. B. C. Kershaw, 453
Waterproofing Engineering, Joseph Ross, 301
Wireless Telegraphy and Telephony, H. M. Dowsett, 533
Wireless Transmission of Photographs, M. J. Martin, 507, 533
Wiring Rules of the Institution of Electrical Engineers, &c., 173
Zinc and its Alloys, T. E. Lones, 301

Books Received:

Aeronautics, Elementary, A. P. Thurston, 479
Aircraft in Peace and the Law, J. H. Spaight, 479
Airman's International Dictionary, Lieut. M. M. Dander, 453
Algebra for Engineering Students, G. S. Eastwood and J. R. Fielden, 429
All the World's Aircraft, 1919, C. J. Grey, 184
Alternating-current Work, A. Shore, 225
Architects' and Surveyors' Diary for 1920, Mark Waterlow, 225
Asbestos and the Asbestos Industry, A Leonard Summers, 22
Aviation Pocket-book for 1919–20, R. B. Matthews, 479
Book-keeping and Business Map, H. Preen, 453
Bradford Chamber of Commerce Year book, 1919, 43
British Trade with Brazil, Arthur Abbott, 453
Briton in Flanders: Pocket Interpreter, E. V. Bisschop, 145
Calculating Diagrams for Design of Reinforced Concrete Sections, J. Williamson, 453
Calculation of Electric Conductors, W. T. Taylor, 145
Chemists' Manual of Non-ferrous Alloys, J. R. Downie, 453
Coal Economy, How to Reduce Coal Consumption by Fifty Million Tons per Year, W. H. Casmey, 453
Combines and Trade Organisations, Memorandum on, John Hilton, 22
Commercial Arbitrations, E. J. Parry, 479
Design of Screw Propellers with Special Reference to Aircraft, H. C. Watts, 479
Diesel Engine Design, H. F. P. Purday, 479
Education and Training for the Electrical and Allied Engineering Industries, &c., 453
Electrical Engineering, Examples in, J. F. Gill and F. J. Teago, 22
Electrical Equipment of Ships, Regulations for, Institution of Electrical Engineers, 43
Electricity: Its Production and Application, R. E. Neale, 479
Electro-chemistry, A Treatise on, Bertram Blount, 43
Factory Management Wastes and How to Prevent Them, J. F. Whiteford, 22
Fire Extinguishers, 605
Flow and Measurement of Air and Gases, Alec B. Eason, 95
Ford Van, Book of the, R. T. Nicholson, 605
Foundations for Machinery, Henry Adams, 453
Industrial Administration, Lectures by A. E. Berriman and Others, 605
Industrial Courts Act, 1919, &c., W. H. Stoker, 429
Investment and Finance, A Plain Guide to, T. E. Young, 22
Iron and Steel in India, Lovat Fraser, 479
Irrigation, Roads and Buildings, and on the Water Supply of Towns, W. L. Strange, 605
Johnson's Materials of Construction, M. O. Withey and James Aston, 479
Journal of the Institute of Metals, G. Shaw Scott, 453
Laboratory Manual of Elementary Colloid Chemistry, Emil Hatschek, 507
Legislation and Administration of the Fire Brigade Service of the United Kingdom, H. S. Bell, 225
Line Charts for Solving Engineering Formulæ, E. W. Tipple, 225

LITERATURE *continued*):

Books Received (*continued*):

Magnetism and Electricity, Intermediate Text-book of, R. W. Hutchinson, 429
Manufacture of Chemicals by Electrolysis, A. J. Hale, 43
Marine Oil Engines: Their Construction, Management and Maintenance, W. D. Mart'n, 22
Mathematics for Engineers, Part II., W. N. Rose, 453
Monographs on Industrial Chemistry: Cement, Bertram Blount, 507
Motor Vehicles and their Engines, E. S. Fraser and R. B. Jones, 225
Official History of the War: Naval Operations, Vol. I., Sir J. S. Corbett, 453
Official Year-book of the Union of South Africa, C. W. Cous ns, 225
Oxy-acetylene Welding Manual, Lieutenant Lorn Campbell, jun., 507
Painters' Pocket-book, A. Seymour Jennings, 95
Papermaking and its Machinery, T. W. Chalmers, 479
Peat Industry Reference Book, F. T. Gissing, 453
Private Companies: Their Utilities and the Exemptions they Enjoy, H. W. Jordan, 43
"Proceedings of the Institution of Mechanical Engineers, January to May, 1919, 22
Profit Sharing, A. Trombert, 453
Propagation of Electric Currents in Telephone and Telegraph Conductors, Dr. J. A. Fleming, 453
Reminders for Company Secretaries, H. W. Jordan, 22
Revision Arithmetic Logarithms, Slide Rule, Mensuration, &c., Terry Thomas, 69
Selected Studies in Elementary Physics for the Wireless Student, E. Blake, 533
Self-taught Mechanical Drawing and Elementary Machine Design, F. L. Silvester, 69
Sheffield, Heavy Engineering Trade of, 605
Ships' Boats: Their Qualities, Construction, &c., E. W. Blocksidge, 453
Sight Rails Record, M. S. Excell, 453
Sight Rails, A Treatise on, M. S. Excell, 453
Storing: Its Economic Aspects and Proper Methods, H. B. Twyford, 507
Streamline Kite Balloons, Design and Stability of, &c., Captain P. H. Sumner, 453
Stresses in Hooks and other Curved Beams, E. S. Andrews, 453
Structural Steel Work, Construction of Steel-framed Building, E. G. Beck, 453
Sydney, Port of, N.S.W., Official Handbook, 605
Syren and Shipping International Mercantile Diary and Year-book, 1920, 184
Tacheometer Tables, H. Louis and G. W. Caunt, 22
Telephonic Transmission, Theoretical and Applied, J. G. Hill, 453
Telephony Without Wires, P. R. Coursey, 95
The Practical Engineer Electrical Pocket-book and Diary, 1920, 507
Theory of Determinants, Vol. III., Sir Thomas Muir, 453
Whittaker's Electrical Engineers' Pocket-book, 605
Wireless Telegraphy and Telephony, H. M. Dowsett, 533

Ammonium Sulphate in Oil Shale Beds, 141
"Anhinga" for Cellulose for Paper and Cotton Manufacture, 39
Ants' Assistance in Diamond Mining, 649

ASSOCIATIONS, INSTITUTIONS & SOCIETIES:

ASSOCIATION OF ENGINEERING AND SHIPBUILDING DRAUGHTSMEN:
Conference at Blackpool, 600

ASSOCIATION, INCORPORATED MUNICIPAL ELECTRICAL:
Convention at Bradford, 577

INSTITUTE OF CHEMISTRY:
Examination Results for Fellowship and Associateship, 128

INSTITUTE, CONCRETE:
Attrition of Concrete Surfaces Exposed to Sea Action, J. S. Owens, 115
Concrete Aggregates, 432
Lectures, Free, on Cement, Concrete, &c., List of Subjects and Lectures, 73

INSTITUTE OF INDUSTRIAL ADMINISTRATION:
First General Meeting, Provisional Committee, Series of Lectures, 449

INSTITUTE, IRON AND STEEL:
Annual Meeting, Outline of Programme, Carnegie Fund for Research Work, Autumn Meeting, 60

INSTITUTE OF METALS:
Annual Autumn Meeting, 538
Student Membership as Affected by War Service, 399

INSTITUTE OF MINING AND MECHANICAL ENGINEERS, NORTH OF ENGLAND:
Steam Turbines at a Colliery, P. Kirkup, 425
Students' Association Formed, 167

INSTITUTE, MINING, OF SCOTLAND:
Increase of Annual Subscription, 399

INSTITUTE, ROYAL, OF BRITISH ARCHITECTS:
Stoppage of Building, Institute Asked to Hold Inquiry, 636
Unveiling Portrait of Late President, 234

INSTITUTE OF TRANSPORT:
Administration and Labour Representation, 649
Some Railway Operating Problems, Sir H. Thornton, 649
Welfare Officer Suggested, 649

INSTITUTE, WEST OF SCOTLAND:
Casting of Steel Ingots, S. W. Williamson, 601

ASSOCIATIONS, INSTITUTIONS & SOCIETIES *(continued)*:

INSTITUTION OF AUTOMOBILE ENGINEERS:
Change in Meetings and Procedure, 297
Electro-deposition of Iron as Applied to Motor Vehicle Repair Work, B. H. Thomas, 601
First Examination Results, 449
London Graduates' Dinner and Concert, 262
Women to be Admitted on Same Terms as Men, 449

INSTITUTION OF CIVIL ENGINEERS:
Annual Meeting, 490
Election of Officers, Awards for Papers, 490
"James Forrest" Lecture, "Fuel Conservation in the United Kingdom, Sir Dugald Clerk, 247
Lectures to Students, Vernon-Harcourt, Economic Requirements for Inland Navigation Transport in the British Isles, R. B. Dunwoody, 26
Local Associations of Members and Students, Establishment of, 402

INSTITUTION OF ELECTRICAL ENGINEERS:
Annual Dinner, 286
Civil Engineers' Registration Bill, Negotiations between the Various Institutions, 323
Low Temperature Carbonisation and its Application to Industry, Major H. L. Armstrong, 297
Revision of Wiring Rules, 13
Summer Meeting Programme, 371
Scottish Centre, Summer Outing, 528

INSTITUTION OF ENGINEERS AND SHIPBUILDERS IN SCOTLAND:
Increased Subscriptions, 221

INSTITUTION, JUNIOR, OF ENGINEERS:
Obscure Points in the Theory of the Internal Combustion Engine, Professor F. W. Burstall, 273

MIDLAND SECTION:
Scientific Truth and Necessities of Life, Professor Burstall's View, 193

INSTITUTION OF LOCOMOTIVE ENGINEERS (LONDON):
List of Representatives of the Institution Abroad, 462

MANCHESTER CENTRE:
Visit of Members to Great Central Railway Locomotive Works, 638

INSTITUTION OF MECHANICAL ENGINEERS:
Secretary's Retirement and New Appointment, 590
Summer Meeting in Lincoln, Programme, 436

INSTITUTION OF MINING AND METALLURGY:
Annual Dinner, 412
Awards for Work and Papers, 128
Remuneration of Mining Engineers and Metallurgists, Resolution Adopted by Council of Institution, 141

INSTITUTION OF MUNICIPAL AND COUNTY ENGINEERS
Journal, Notes by Mr. W. H. Eley on Steam Wagons, 193

INSTITUTION OF NAVAL ARCHITECTS:
Scholarships Offered, 13, 201, 221
Summer Meeting at Liverpool, Programme, 662

INSTITUTION OF PETROLEUM TECHNOLOGISTS,
Air-lift System of Raising Oil, R. Stirling, 625
Spontaneous Ignition Temperatures of Liquid Fuels, H. Moore, 91

INSTITUTION, ROYAL:
Lecture Programme for After Easter Session, 310
Meetings and Elections, 156, 260, 490, 518, 612

SOCIETY OF ARCHITECTS:
Basic Scheme for Development of London, G. A. T. Middleton, 193

SOCIETY, CERAMIC:
Seventh Meeting of Refractory Materials Section, Programme, Papers, 437

SOCIETY OF CHEMICAL INDUSTRY:
Award to Monsieur Paul Kestner, 538
BIRMINGHAM AND MIDLAND SECTION:
Action of Water on Lead, J. F. Liverseege and A. W. Knapp, 65

SOCIETY OF ENGINEERS (INCORPORATED):
Opening Meeting, Presidential Address, Award of Premiums, 167

SOCIETY, FARADAY:
Nitrogen Products Committee, Part Taken in its Formation by the Society, 425

SOCIETY, PHYSICAL:
Hot-wire Anemometer for Investigation of Flow of Gases, J. S. G. Thomas, 399

SOCIETY, ROYAL AERONAUTICAL:
Trans-continental Flying, Capt. P. D. Acland, 432

SOCIETY, ROYAL, OF ARTS:
By-products in Industry: Wax from Esparto Dust in Papermaking, C. F. Cross, 323
Cellulose Industry, Cantor Lectures, C. F. Cross, 323
Dr. Rosenhain's Lecture on Aluminium and its Alloys, 553

SOCIETY, ROYAL ASIATIC:
New Premises, 425

SOCIETIES, PHYSICAL AND OPTICAL:
Joint Exhibition and Lectures, 26
Some Polarisation Experiments, Professor F. J. Cheshire, 26
Use of Light in Transmission and Reproduction of Speech, Professor A. O. Rankine, 26

ATHABASKA Landing, Alberta, Canada, 275 Miles Road Projected, 247
Austin Motor Company's Output, 235
Australian Grass Tree, the "Blackboy," Company to Utilise its By-products, 115
Austrian Hydro-electric Station, 480
Automatic Wireless Call Device, 553
Automobile Association, Entrance Fee and Annual Subscription, Petition Against Price of Motor Fuel, 425

Wagons Being Built for British Railways, Statistics, 247

Wagons Bought by Belgian Government from Britain, 91, 247, 349

Wagons Built at Woolwich for Great Western and North-Eastern Railways, 323

Wagons in Great Britain, Statistics, 247, 475, 577

Wagons and Locomotives Out of Repair, Lowest Percentage on British Railways, 13

Wagons in Possession of Ministry of Munitions, 399

Wagons Still Detained in France, 577, 601

War Honours for Indian Railway Services, 65

War Seals Foundation Flats, Great Western Contribution to Building, 425

Waterloo Free Buffet Closed, 399

Welfare Officer Suggested, 649

West London Railways Change of Control, 91

Wives as Workshop Visitors, Sir H. Fowler's Idea, 577

Women Employees on United Kingdom Railways, 323

Woolwich, Proposed Tunnel Railway, Trial of the Kearney System, 425

"Working to Rule" Proposal Failure, 481

Yorkshire Dales Railway Suggested Extension, 399

RALEIGH Cycle Works Extension, 65

Randfontein Central Mine, Transvaal, Installation of Largest Electric Winders in the World, 65

Rating of Machinery, 388

Refrigeration Industry in Japan, Organisation of Society, 115

Regenerative Propeller, 564

Research Association for British Launderers' Industry, Board of Trade Licence Applied for, 65

Research Association of British Motor and Allied Manufacturers, New Association and Government Assistance for, 65

Research, Scientific, in Canada, 596

Rhine-Main-Danube Canal, Proposed, 349

Rhodesia, Iron—*see* Iron and Steel

Road Board Functions Transferred to Ministry of Transport, Details, 91, 388

Roads, Upkeep Contributions, Division of Cost, 425

Rock Bursts in Mysore Mines, Dr. W. F. Smeeth, 39

Rock Drilling Record in South Africa, 425

Rotherham Tramways, Omnibuses, &c., Profit and Loss, 577

Royal Agricultural Society of England, Darlington Show, 180

Royal College of Science, Its Importance and Value, 475

Royal Metal Trades Pension Society Annual Dance, 115

Rubber and Leather Substitutes in Germany, 649

Rugby Engineering Society's New Address, 538

Russian Carpenters' Antiquated Methods, Lieut. B. L. Rigden, 297

S

ST. LAWRENCE River, New Lock Construction, Cost of Development, 193, 349

Salt Beds in Nova Scotia, 141

Salt Lake Pickling Pool for Railway Sleepers, 91

Salvage Department, Birmingham, Electric Vehicles for, 323

Samarang, Dutch East Indies New Harbour, 297, 475

Sault Ste. Marie Canal, 1797, 229

Scheldt—see Tunnels

Science, Paris Academy Offers Prizes in Various Branches, 167

Scientific and Industrial Research Department, Issue of Licence to Scottish Shale Oil Association, 399
- Research Association for British Motor Cycle and Cycle Car Industry, 625

Scraper, Pneumatic, for Large Surfaces, 449

Sea Walls Protection by Wood Blocks, Experiments, J. S. Owens, 115

Severn Tunnel, Another, Projected, 193

Severn Wants in Connection with the River, Another Railway Line Over, Another High-level Bridge Over, also Dam for Creation of Electrical Power, 328

Sewers, Setting Out, M. S. Excell, 140

Shaft Sinking Records in South Africa, 529

Sheffield and South Yorkshire Navigation, Modernising Recommended, 37

Sheffield Tramway Track Repairs, Great Increase in Cost, 39

SHIPS AND SHIPPING MATTERS:
- American *v.* British Workmen as Shipbuilders, 13
- "Betty," at Olympia, 449
- Chinese Order for Ship by British Shipbuilders, 449
- Concrete Ship, Launch of First, Constructed in Canada, 91
- Dannubius Shipping Company Bought by Italians, 167
- East Coast Fleet, Lancashire and Yorkshire Railway, Resumed Cargo Sailings, 221
- Electrical Power to Replace Steam in American Wooden Ships Built during War, 13
- Emerald, H.M. Light Cruiser, Launched, 553
- Explosion of Steam Stop Valve on Steamship, 91
- Explosion, Unusual Kind on the S.S. Willaston, 449
- Fire on Oil-burning Ships, Board of Trade Committee to Advise Precautions, 167
- Fleet of American Ships for Iron Ore Conveyance, Details, 115
- Folkestone and Boulogne Steamers, Denial of Overcrowding, 553
- Fullagar Motor Ship with Cammelaird-Fullagar Oil Engine, Satisfactory Trials, 475
- Geared Turbine Steamer Bruges for Great Eastern Railway Service, John Brown and Co., Limited, 323

SHIPS AND SHIPPING MATTERS *(continued)*:
- Greek Merchant Fleet, Rapid Growth, 618
- Hull and Zeebrugge, Joint Railway Steamship Service Resumed, 649
- Irish Cross-Channel Service, New Steamer Ordered by London and North-Western Railway, 625
- Irish Cross-Channel Steamers, Launch of the Hibernia, 375
- Ironclads Invented by Koreans in 1592, 167
- Japanese Shipbuilding in 1919, 297
- "Leader" Armoured Cable in Portsmouth Harbour to Indicate Ships' Position, 390
- "Motor Ship," 436
- Oil Tank Steamer Construction in British Columbia, 577
- Oil Tank Steamers Building at Seattle, 503
- Oil Tank Steamers, Extensive Building in U.S.A., 221
- Output of Tonnage in British Columbia, 141
- Output of Wooden Ships from Victoria, B.C., Record for the Port, 141
- "Sperry" Gyroscopic Compasses for New Ships, 577
- Tatjana Launched by Vickers, Montreal, 577
- Torpedoed Vessel, Noteworthy Repairs at Rotterdam, 375
- U Boats, Their Engines, Points and Peculiarities, W. S. H. Nicolson, 141
- United States Contracts for Electrical Propelling Machinery for Warships, 273
- United States Old Battleship Iowa as Moving Target Controlled by Wireless, 475

SIBERIAN Lakes Deposits of Sodium Sulphate, 65

Signalling, Invisible, with Ultra-violet Rays, 601

Signalling, Secret, by Light, for Night Use, 39

Silver-lead Mine in Cornwall, Re-starting, 39

"Singing Sands" of Lake Michigan, 577

Skilled Employment and Apprenticeship Association, Report, 553

Slotter Types of Machines, American Views, 449

Smelter, Very Large, Projected at Oroya, Peru, 65

Smelting of Tin by Electric Furnace, 115

Smoke and other Pollution of Air, Health Committee Appointed, 221

Société des Ingénieurs Civils de France, Projected Tour, 564

South Africa, Extraordinary Industrial Possibilities of, 375

South Africa, Mineral Output of, 1919, 273
